

### Object Creation

There are several ways to create objects in JavaScript. Here are some common methods:

#### 1. Object Literal:

- You can create an object using the literal notation with curly braces {}.

### object Literal

```
const person = {  
    name:  
'John',  
    age: 30,  
    occupation:  
'Developer'  
};
```
