

### Module Setup

```
var app = angular.module('MyApp', []);
```

### Controller Setup

```
app.controller('MainController', ['$scope', function($scope) {}]);
```

### Core Directives

#### Attach a Module to HTML

```
<body ng-controller = " MyApp ">
```

#### Attach a Controller to HTML

```
<div ng-controller="MainController">
```

#### Iterate through an array

```
<div ng-repeat="item in items">
```

### Directive Template

```
app.directive('MyDirective', function() {  
  return {  
    restrict: 'E',  
    scope: {  
      info: '='  
    },  
    templateUrl: 'js/directives/myDirective.html'  
  };  
});
```
