My Questions

- 1 If we are going to have a very successful year in 2024, what will that look like - What will we have done over the next 11 months to make it successful? How does this position help achieve those goals?
- 2 Seeing this is a new role in a new team, what is Epic's vision or mission for expanding it's privacy program?
- 3 I see you both have come from outside of games in the last year - and both ex-Google. What prompted you to make the change and why Epic?
- 4 What's the thing keeping you up at night that we need to work on right away?
- 5 What's your leadership style?

7 Ideas

- 1 Google Workspace - DLP Recommended
- 2 Yandex - Popped in security eval and high risk for data gathering
- 3 Dropbox - Doesn't have private encryption, and already using Google Workspace
