### Basic CLI and Systems Management Commands
- `clock set`
- `set date`
- `reload`
- `request system reboot`
- `send`
- `request message`
- `show clock`
- `show system uptime`
- `show enviroment`
- `show chassis enviroment`
- `show history`
- `show cli history`
- `show ip traffic`
- `show system statistics`
- `show log | show log file name`
- `show processes`
- `show system processes`
- `show running config`
- `show configuration`
- `show tech-support`
- `request support information`
- `show users`
- `show system users`
- `show version`
- `show version | show chassis hardware`
- `terminal length`
- `set cli screen-length`
- `terminal width`
- `set cli screen-width`
- `trace`
- `traceroute`

### Clock Commands
- `clock set`
- `set date`

### System Management Commands
- `reload`
- `request system reboot`
- `send`
- `request message`
- `show clock`
- `show system uptime`
- `show enviroment`
- `show chassis enviroment`
- `show log | show log file name`
- `show processes`
- `show system processes`
- `show running config`
- `show configuration`
- `show tech-support`
- `request support information`
- `show users`
- `show system users`
- `show version`
- `show version | show chassis hardware`
- `terminal length`
- `set cli screen-length`
- `terminal width`
- `set cli screen-width`
- `trace`
- `traceroute`

### Interface Commands
- `clear counters`
- `clear interface statistics`
- `show interfaces`
- `show interfaces`
- `show interfaces detail`

### Simple Switching Commands
- `show ethernet-switching interfaces`
- `show spanning-tree`
- `show spanning-tree bridge`
- `show mac address-table`
- `show ethernet-switching table`

### Simple Switching Commands
- `show ip ospf database`
- `show ospf database`
- `show ip ospf interface`
- `show ospf interface`
- `show ip ospf neighbor`
- `show ospf neighbor`

### OSPF Commands
- `clear arp-cache`
- `clear arp`
- `show arp`
- `show ip route`
- `show route`
- `show ip route summary`
- `show route summary`
- `show route-map`
- `show policy | policy-name`
- `show tcp`
- `show system connections`

### OSPF Commands
- `clear bgp neighbor`
- `clear ip bgp dampening`
- `clear bgp damping`
- `show ip bgp`
- `show route protocol bgp`
- `show ip bgp community`
- `show route community`
- `show ip bgp dampened paths`
- `show route damping decayed`
- `show ip bgp neighbors`
- `show bgp neighbor`
- `show ip bgp neighbors address advertised-routes`
- `show route advertising-protocol bgp address`
- `show ip bgp neighbors address received-routes`
- `show route receive-protocol bgp address`
- `show ip bgp peer-group`
- `show bgp group`
- `show ip bgp regexp`
- `show route aspath-regexp`
- `show ip bgp summary`
- `show bgp summary`

### BGP Commands
- `clear bgp neighbor`
- `clear ip bgp dampening`
- `clear bgp damping`
- `show ip bgp`
- `show route protocol bgp`
- `show ip bgp community`
- `show route community`
- `show ip bgp dampened paths`
- `show route damping decayed`
- `show ip bgp neighbors`
- `show bgp neighbor`
- `show ip bgp neighbors address advertised-routes`
- `show route advertising-protocol bgp address`
- `show ip bgp neighbors address received-routes`
- `show route receive-protocol bgp address`
- `show ip bgp peer-group`
- `show bgp group`
- `show ip bgp regexp`
- `show route aspath-regexp`
- `show ip bgp summary`
- `show bgp summary`
