tasks players

$ rails initialize:players	Player#team_id #first_name #last_name #slug #dob, #position_mask

Overall, this script automates the process of importing player data from a JSON source, maps relevant attributes to player records, and stores them in the database.

$ rails update:players	Player#status

$ rails players:download_photos:low	

Overall, this script automates the process of downloading player photos in low quality and organizing them into team-specific directories on the user's desktop.

tasks matches

$ rails initialize:matches	Match#date #year #round #match #status #result #venue #home_team_ticker #away_team_ticker #home_team_score #away_team_score #home_team_id #away_team_id #bye
$ rails update:matches	Match#status #home_team_score #away_team_score #result

tasks player_match_stats

$ rails initialize:player_match_stats	PlayerMatchStat#player_id #year #round #match
$ rails update:player_match_stats:agregate_units:price	PlayerMatchStat#price
$ rails update:player_match_stats:agregate_units:break_evens	PlayerMatchStat#break_even #break_even
$ rails update:player_match_stats:agregate_units:transfers_in_and_out	PlayerMatchStat#transfers_in #transfers_out

Overall, this script automates the process of updating player match statistics by fetching the number of transfers in and transfers out for each player in a specified round. Meant to be running the task during the last match of the round, specifically during halftime, to obtain cemented results.

$ rails update:player_match_stats:agregate_units:selections	PlayeMatchStat#owned_by #selections #selections_captain #selections_vice_captain #selections_emergency #selections_bench

Meant to be running the task during the last match of the round, specifically during halftime, to obtain cemented results.

$ rails update:player_match_stats:base_units	PlayerMatchStat#match #player #played #kicks #hand_balls #marks #tackles #goals #behinds #hitouts #frees_for #frees_agains #time_on_ground
$ rails update:player_match_stats:base_units:kick_ins	PlayerMatchStat#kick_ins #kick_ins_played_on
