Status	code complete in review
Assignee	release manager reviewer
Test Steps	
Build Steps	

Git Flow

Source control workflow

New Repo

```
git clone ssh://xp-dev.com/...
```
```
git checkout -b develop
```
```
git push origin develop
```

Branch

Feature

`git checkout -b feature/#/desc`	from **develop**

Release bug

`git checkout -b release/#/desc`	from **release**

Hotfix

`git checkout -b hotfix/#/desc`	from **master**

*Where **#** is issue number

Work

Commit

`git add myfile.txt`	add a **new** file
`git commit -a -m "hooks"`	See **hooks**
`git push origin branch`	

Hooks

`Updates #1`	updates
`Fixes #1`	fixes
`Review #1`	review
`Reopen #1`	reopen
`#1 @1h30m`	times
`Fixes #1 @45m - work done`	example
