

### Homemade Yogurt

Heat up milk until you start to see bubbles forming on the rim of the milk. About 85 celsius.

Let it cool down to < 45 celsius. Stir occasionally. (45 seconds means you can hold your finger against the pot for 10 seconds)

For each liter of milk stir in 100g or milk powder and 25 grams yogurt

Store in airtight container for 9 + (no. of liters) hours in someplace warm.

Warm can be outside or an instant pot. You can use an oven but turning on the heat every 2 hours to about 50C.
