'Contract' verbs

Verbs with a stem that ends in α, ε, or o often end up 'contracted' over time. That is to say that when the vowel from the stem ends up next to the vowel from an ending, a vowel sound usually "wins", out-competing the other. For example, The uncontracted form of "I see" is "ὁράω." However, over time, the verb 'contracts' and becomes "-ὁρω", dropping the less "powerful" alpha sound.

Present Indicitive Active

Person	Singular	Plural
1st	-ω	-ομεν
2nd	-εις	-ετε
3rd	-ει	-ουσι(ν)

Imperative (active)

singular	-ε
plural	-ετε

note that the pl. imperative mood has the same ending as the 2nd person pl. indicative mood (-ετε). Use context clues to figure out the mood.
NEGATIVE- To make an imperative negative, i.e. to tell someone *not* to do something, put "μὴ" ahead of the verb. For example, μὴ βαίνε means "do not go!"

Irregular: Present Indicative Active of εἰμί
