limiting chord process;

Differentiation

limiting chord process;

Product rule; $y = u \cdot v \rightarrow y' = u'v + v'u$

Quotient rule;

Chain rule; if $y = f(g(x)) \rightarrow y' = f'(g(x)) \cdot g'(x)$

Differentiation

limiting chord process;

Product rule; $y = u \cdot v \rightarrow y' = u'v + v'u$

Quotient rule;

Chain rule; if $y = f(g(x)) \rightarrow y' = f'(g(x)) \cdot g'(x)$
