Cisco-Ansible Cheat Sheet

by Carl (cjbaccus) via cheatography.com/189058/cs/39432/

Ansible configuration baseline

Ansible cfg:

```
[defaults]
inventory=./hosts
host_key_checking=False
retry_files_enabled=False
gathering=explicit
```

backup playbook

```
---
- hosts: csr
    tasks:
                - name: Show version
                    ios _co mmand:
                                    com mands: show run
                    reg ister: version
                - name: print versions
                    copy:
                        con tent: "{{version.stdout[0]}}\n\r"
                        dest: ~/Cisco-ansible-backup/{{inventory_hostname}}-cfg.txt
```

The last section takes the results of 'show run' command and pastes it to the destination folder.

ansible-vault

```
ansible-vault encrypt
group_vars/all.yml
  Please enter password:**
  Please enter password again:
**
cat /group _va rs/ all.yml
$ANSIB LE_ VAU LT; 1.1 ;AES256
