Neural Stem Separation Layers	
Vocal Stem	Clean vocal lead, pitch correction, spatial FX
Drums & Beats	Isolated rhythm section, sidechain triggers
Bassline	Sub-bass mono summing, low-end harmonics
Instruments	Synths, guitars, pads for polyphonic MIDI export

Modular audio separation powered by Crea IA sound engine.

Audio Export & MIDI Specifications	
WAV Master	24-bit / 48kHz lossless studio quality
MP3 Stream	320 kbps high-bitrate audio for web
MIDI Data	Type 1 polyphonic pitch and velocity map

Production standards compatible with modern DAWs and studio workflows.
