

### xTerm

shift + ins      paste clipboard contents to cli window

### dpkg (cli of gdebi?)

dpkg -i <package.deb>      install package from terminal

### Soft Links

```
ln -s {existing-filepath.ext} {shortcut-  
filepath.ext}
```

Think of soft links as {GULP!!!} Windoze shortcuts...

### Iceweasel

ctrl + [      simulate **backward** navigation

ctrl + ]      simulate **forward** navigation

C
