This is where consistency is key and is critical. There are tools that you can use to automate the process. Such as, Hootsuite (on your computer as well as an app on your phone), Post Intelligence (I use on my computer), Instaquote (app on my phone). We'll stick to just these 3 for now but there are many ways you can automate.

1. **ONE** Quote a day or every second day
2. Marketing Tip
3. Video sharing a marketing tip
4. Video or post educating people of the value and benefits of your products **WITHOUT** mentioning the company name.
5. Lifestyle posts
6. Results post
7. Engagement post. Ask a question

REMEMBER** Post 4 -7 times A DAY

When you do a video, post it on your Facebook PAGE, then share to your profile, then upload it to you tube and add to your blog with a couple of sentences of text.

One Post a day can have your blog URL with it. (Great way to start driving traffic to your blog)

4. You MUST ask questions of your prospects to find out if they are even in need of what you have. (IE: your products or biz opp) Brining it up before someone has even shown interest will turn them off and you then lost them as a potential customer or prospect.

5. Reach out and connect with existing friends in the industry everyday.

6. When chatting with people, Ask if they would like to be on your newsletter. Tell them you provide a TON of value. Health and wellness tips or whatever tips you provide related to your product or service.

7. Start building THAT EMAIL LIST!

****NOTE:** The email list described here is NOT the auto responder that is given to you by your company. It is a separate newsletter that you create in an Aweber or Get Response account. It is Yours and exclusive just to you!!
