

### Definition of Feedback

Feedback is information a teacher or another speaker, gives to learners on how well they are doing, either to help the learner improve specific point, or to help plan their learning.

### Recommendations

### Recommendations

Feedback should be educative. Provide an explanation and example as to what is correct and incorrect about the student's work.

### Feedback techniques

Feedback techniques

- Aks-Tell-Ask
- Ask student for self assessment
- Tell them the performance you observe and how it differs to what you expect.
- Ask students how they think they could improve and what action they can take.
- Sandwich Technique
- Praise for the learners' strengths and areas of good performance.
- Tell them the behaviors / performance you observe and how it differs to what you expect.
- Praise their ability to adapt and modify and use examples where they have adapted and modified behavior in the past successfully.
- Bridge Technique
- It connects concepts together from the past to future, focusing on:
  - Past positive behavior / performance
  - Present observed behavior / performance
  - Future behavior / performance expected
