What are Push Notifications?

Connection established from a browser to operating system specific functionalities.

For which browsers can I use this cheat sheet?

Chrome

Prerequesites

Chrome 52

Web Server for Chrome (Plugin)

Text Editor

Steps

Install Chrome Server

Copy and Paste the code snippets into two files. One's for JavaScript functions and the other one is used for initializations.

Register your Push Notification (link list).

With all the code correctly copied, your notifications are ready to be customized.
