

### Connecting to a Wallet - MetaMask (Testnet)

Network Name: Rootstock Testnet

RPC URL: <https://public-node.testnet.rsk.co>

Chain id: 31

Currency Symbol: tRBTC

Block Explorer URL: <https://explorer.testnet.rootstock.io/>

See mainnet configuration: <https://dev.rootstock.io/dev-tools/wallets/metamask/>

### Developer Resources

Rootstock Docs	Discord Community	Grants	GitHub	DevTools

### Quick Start Guides

Wagmi Kit	Hardhat Kit	Rust	Python Guide
<a href="https://github.com/rsksmart/wagmi-starter-kit">https://github.com/rsksmart/wagmi-starter-kit</a>	<a href="https://github.com/rsksmart/rootstock-hardhat-starterkit.git">https://github.com/rsksmart/rootstock-hardhat-starterkit.git</a>	<a href="https://dev.rootstock.io/resources/tutorials/rootstock-rust/">https://dev.rootstock.io/resources/tutorials/rootstock-rust/</a>	<a href="https://dev.rootstock.io/developers/quickstart/web3-python/">https://dev.rootstock.io/developers/quickstart/web3-python/</a>

### Block Explorers

Rootstock Explorer	Rootstock Explorer API	Blockscout Explorer
<a href="https://explorer.testnet.rootstock.io/">https://explorer.testnet.rootstock.io/</a>	<a href="https://explorer.testnet.rootstock.io/">https://explorer.testnet.rootstock.io/</a>	<a href="https://rootstock.blockscout.com/">https://rootstock.blockscout.com/</a>

### Dev Environment

Hardhat	Foundry	Remix
<a href="https://dev.rootstock.io/dev-tools/hardhat/">https://dev.rootstock.io/dev-tools/hardhat/</a>	<a href="https://dev.rootstock.io/dev-tools/foundry/">https://dev.rootstock.io/dev-tools/foundry/</a>	<a href="https://remix.ethereum.org/">https://remix.ethereum.org/</a>

### Contract Verification

Explorer	Blockscout	Hardhat Verify Plugin
<a href="https://explorer.testnet.rootstock.io/">https://explorer.testnet.rootstock.io/</a>	<a href="https://rootstock.blockscout.com/contract-verification">https://rootstock.blockscout.com/contract-verification</a>	<a href="https://dev.rootstock.io/developers/smart-contracts/verify-smart-contracts/">https://dev.rootstock.io/developers/smart-contracts/verify-smart-contracts/</a>

### Solidity Compiler

Supported Version: up to 0.8.20

EVM: London

If you are having trouble interacting with your deployed Smart Contract, check the Solidity version used to build the contract.

### Derivation Path

Mainnet: m/44'/137'/0'/0/N

Testnet: m/44'/37310'/0'/0/N

When using BIP-44-compatible wallet software, you will need to specify a derivation path.

### Oracles

Umbrella Network	Redstone Finance
<a href="https://umb.network/">https://umb.network/</a>	<a href="https://redstone.finance/">https://redstone.finance/</a>
