## Notebook

Launch Notebook in brower

jupyter notebook

## **NB** Extensions

conda install jupyter\_contrib\_nbextensions jupyter\_nbextensions\_-configurator nbpresent nb\_conda nb\_conda\_kernels nb\_anacondacloud

## Common Problems

'Failed to launch GPU process' when launching jupyter notebook in chrome browser

In the same terminal and before invoking "jupyter notebook": export BROWSER=google-chrome

No Conda or Extensions tab in browers

Run in terminal:

jupyter contrib nbextension install --user

If the error message warns on the lack of pytest package, install it and rerun the configuration command:

conda install -c conda-forge pytest

jupyter contrib nbextension install --user
