

Exclude addresses

```
R2(config)#ip dhcp excluded-address 192.168.10.1 192.168.10.10  
R2(config)#ip dhcp excluded-address 192.168.30.1 192.168.30.10
```

Um einen DHCP-Pool genauer zu definieren, kann man Adressen weglassen.
