

### Basics of Russian

In Cyrillic, there are 33 letters: 10 vowels (а, э, ы, у, о, я, е, ё, ю, и), 20 consonants (б, в, г, д, ж, з, к, л, м, н, п, р, с, т, ф, х, ц, ч, ш, щ), й or a semi-consonant, and 2 pronunciation signs (ь and ъ).

### Vowels

Group I	Group II
А	Я
Э	Е
Ы	И
О	Ё/Е
У	Ю

### Consonants

unpaired	paired
velars: к г х	the rest
hushers: ж ш ч щ	
tse: ц	

### Vowel Reduction

### Gender

What is gender?	There are gender types for nouns: masculine, feminine, or neuter.
Masculine	usually end in consonant (unpaired, hard paired consonants) or -й some end in ь (soft paired consonants)
Feminine	usually end in -а or -я (if the noun refers to male, it is not female) some end in ь (soft paired consonants)
Neuter	usually end in -о, -е or -ё

### Declension

What is declension?	There are declension types for nouns: first, second, third.
1st declension	masculine nouns that end in ь (soft paired consonant) nouns that end in consonant (unpaired, hard paired consonants) nouns that end in -о, -е or -ё
2nd declension	nouns that end in -а or -я
3rd declension	feminine nouns that end in ь (soft paired consonant)

### Basic Rules

if the word ends in й	remove it and replace it with group II version of ending
if the word ends in ь	remove it and replace it with group II version of ending
consonant	hard paired or unpaired: add
vowel	remove it and replace with corresponding

### Spelling Rules

regards unpaired consonants	
1)	after unpaired consonant, instead of ю and я, use the letters y and a
2)	always use e over Э
3)	always use И over Ы
never Ё	
O: after к г х	
O: after hushers and tse if ending is stressed	
e: after hushers and tse if ending is not stressed, stem is stressed	
addition	

### Possessive Adjectives

	1st	2nd	3rd
masculine	мой наш	твой ваш	его
feminine	моя наша	твоя ваша	её
neuter	моё наше	твоё ваше	
			их
