

Enterprise Systems

an **enterprise-wide, modular, integrated, real time** information system responsible for **transaction** processing across **all** business **areas**

large-scale application software packages that support **business processes, information flows, reporting, and data analytics** in complex organizations

Enterprise Resource Planning (ERP) Systems

a **cross-functional** enterprise system driven by an **integrated** suite of software **modules** that supports the basic **internal business processes** of a company.

typically support Operations (Production), Human Resources, Finance & Accounting, Sales & Distribution, and Procurement.

Why Study Enterprise Systems?

Help organisations to:

Analyse the benefits

Analyse the implementation risks

Analyse the complexity of such systems

Understand their enterprise systems
