

### Account events

<b>account.updated</b>	Occurs whenever an account status or property has changed.
<b>account.application.authorized</b>	Occurs whenever a user authorizes an application. Sent to the related application only.
<b>account.application.deauthorized</b>	Occurs whenever a user deauthorizes an application. Sent to the related application only.
<b>account.external_account.created</b>	Occurs whenever an external account is created.
<b>account.external_account.deleted</b>	Occurs whenever an external account is deleted.
<b>account.external_account.updated</b>	Occurs whenever an external account is updated.

describes an external account (e.g., [card](#) or [bank account](#))

### Application fee events

<b>application_fee.created</b>	Occurs whenever an application fee is created on a charge.
<b>application_fee.refunded</b>	Occurs whenever an application fee is refunded, whether from refunding a charge or from refunding the application fee directly. This includes partial refunds.
<b>application_fee.refund.updated</b>	Occurs whenever an application fee refund is updated.

describes an [application fee](#)

### Balance event

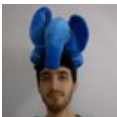

<b>balance.available</b>	Occurs whenever your Stripe balance has been updated (e.g., when a charge is available to be paid out). By default, Stripe automatically transfers funds in your balance to your bank account on a daily basis.
--------------------------	---

describes a [balance](#)

### Charge events

<b>charge.captured</b>	Occurs whenever a previously uncaptured charge is captured.
<b>charge.expired</b>	Occurs whenever an uncaptured charge expires.
<b>charge.failed</b>	Occurs whenever a failed charge attempt occurs.
<b>charge.pending</b>	Occurs whenever a pending charge is created.
<b>charge.refunded</b>	Occurs whenever a charge is refunded, including partial refunds.
<b>charge.succeeded</b>	Occurs whenever a new charge is created and is successful.
<b>charge.updated</b>	Occurs whenever a charge description or metadata is updated.

describes a [charge](#)
