## Cheatography

## Epicor Manager-2000 Cheat Sheet by jttacj1 via cheatography.com/25306/cs/6587/

| TCL Commands |
|--------------|
| LIST         |
| SORT         |
| SELECT       |
| DELETE       |
| MODIFY       |
| ED           |
| MERGE.LIST   |
| GET.LIST     |
| SAVE.LIST    |
| CLEARSELECT  |
| .L           |
| .C           |
| .Х           |

| M2K Administration Commands |
|-----------------------------|
| \SAVE.IP                    |
| \SELECT                     |
|                             |

| Data Administration           |  |  |
|-------------------------------|--|--|
| M2K<br>Function               | Updating a Single Record with respect to business logic.               |  |
| ED                            | Updating a Single Record bypassing business logic.                     |  |
| M2K<br>Function +<br>\SAVE.IP | Updating multiple records - respecting business logic.                 |  |
| MODIFY                        | Update multiple records -<br>bypassing business logic                  |  |
| ED +<br>Prestored<br>Command  | Update multiple records -<br>bypassing business logic<br>more flexible |  |
| DELETE                        | Permanently Kill Multiple<br>Records                                   |  |
| AT.PLUS                       | Attribute Transfer Program -<br>Can Copy from Other Fiels              |  |
| STI.FI-<br>LE.FIX             | Custom Data Manipulation<br>Program                                    |  |
|                               |  |  |

| Data Administration (cont)                   |                               |  |  |
|--|-------------------------------|--|--|
| Custom                                       | Update multiple records       |  |  |
| Code   | repeatably or because of very |  |  |
|  | unique update requirements.   |  |  |
| Methods of Updating Manage-2000 Files        |                               |  |  |
| ordered from least to greatest potential for |                               |  |  |

disaster!
