## Cheatography

### Precision Questions & Answers Cheat Sheet by larry.almeida via cheatography.com/189838/cs/39571/

Social Intelligence		
Tone	Maintain tone of curiosity. Remind yourself that you can learn from this person.	
Pace	One question at a time - adjust if you sense misunderstanding or anxiety.	
Preamble	Use short phrases that explain intent and awareness of difficult terrain.	
Focus   Maximise Opportunity		
Partic-	Participating be best use of time/energy? Which stakeh-	

ipation	time/energy? Which stakeh- olders should be involved? Who should be notified or included?
Commun- ication Channel	Can discuss over email instead of meeting time? Would be better face to face/via video? Can we mitigate downsides of video call?
Discussion Direction	What is desired outcome? What is big picture? Getting to heart of matter? Too deep into details?
Motivation	Consistent with our mission? Align with strategic prios? Importance, given other tasks? Passionate about this?
Mental Ecology	Clear headed enough for right now? Attention focused? Need break?

### Evidence | Assess Strength or Credibility of

Data	
Credibility of Source	Area of expertise? experts agree? bias seen in the past? benefit financially, or other way?
Weighing Reasons	strongest reasons, pro and con? reasoning consistent?
Sampling	sample size? representation?
Data Collection	Method? When? Is typical qualitative research design? Control group?
Data Analysis	What does this mean? Standard Deviation? Normal Distribution? Outliers? Sample size significant for meaningful conclusion?

#### Effect | Explore Outcomes Stakeh-Impact on stakeholders olders (clients, customers, vendors, colleagues, other projects, community) Time Span Short/Medium/Long term effects Multiple best/worst/most likely case? Scenarios Unintended unexpected downsides/up-Conseqsides? Range of side effects uences desirable/undesirable? leading indicator/first sign of Indicators change? Lagging indicators/late signs of change? small wins to watch for and celebrate?

# Effect | Explore Outcomes (cont) Risk Possibility of something -ve Assessment happening? If occurs, what is the harm? Communication Lifecycle Listen Hear the whole question. Note key points. Paraphrase. Align Core Answer First. [Yes OR No, Number OR Date], I don't know and..., # of bullets].

Distill	Pause (up to 5 sec before
	speaking). Keep it essential to vital points.
Qualify	Do not oversimplify. [Currently, Most reliable data shows, Best

# Assumption | Surface what we've taken for granted

answer right now...]

3	
Existence	Safe to assume there actually is a problem to the solution?
Uniqueness	Are we assuming there is only one process
Measur- ement	Safe to assume we can know that we've solved the problem?
Possibility	Assuming we have enough time?
Value	Assuming problem is worth solving?
Audience	Assuming we share the same pers[ective?
Category	Assume we grouped things correctly?
Similarity	Assuming these are more alike than different?
Time Constancy	Assuming situation hasn't changed since we started?
