Flexibility & Mobility

Complete static stretch routine after strength/cardio work or after warmup if on rest day

Increase difficulty of stretches for each muscle group as you progress

Hold 10-20 seconds for each stretch, increasing the time if feeling particularly tight

Cardio

Regular cardio work should be included but is highly personal to your goals, abilities and availability. Example cardio routine below:

Complete cardio routine once a week. Do both weekly exercises on weeks 1-3 (progressions are increasing reps within time limit)

Alternate between each monthly exercise on week 4 (progressions are increasing max distance)

Weekly

Sprints

Swimming - Lengths (Three style variations per session)

Monthly

Long Distance Running

Long Distance Cycling
