

author

Specify the post author

Default: empty

Example: `[display-posts author="bill"]`

category

Specify the category slug (or comma separated list of category slugs)

Default: empty

Example: `[display-posts category="fishing,hiking"]`

date_format

Specify the date format used when `include_date` is true. See [Formatting Date and Time on the Codex](#) for more information.

Default: `'(n/j/Y)'`

Example: `[display-posts include_date="true" date_format="F j, Y"]`

id

Specify a specific post ID (or multiple post IDs) to display.

Default: empty

Example: `[display-posts id="9, 10"]`
