A-	Ctrl--	Decrease font size
A	Ctrl-0	Reset font size

*) May not work on all keyboards.

Customizing key bindings

User Settings	All customizations are set in `setti` found via the *Settings* menu. No GU v1.0.
Defaults	Hold the *Alt*-key while pressing the open `defaul ts.json`. This is us your own `settin g.json`!
Keys	Key bindings are set in the `" key` block as: `{ " com man d":"c mdN ame od+ key "}`
Actions	Some commands take additional `a` to modify the behaviour. See e.g. `s opy`.
