Categories

Effects Google stylized photo

HDR Google auto-HDR

Pano Google stitched Panoramic

Collage Google auto-created collage

Motion Google created GIF

Animation Similar to "Motion" but not the same...I'm not sure what differentiates the two

Cameras

#Nikon

#iPhone

#Sony

#Canon

#CanonEOSDIGITALREBELXT

#iPhone4s

#SAMSUNG-SM-G870A

I think the rule for figuring out what hashtag to use is to go to a picture taken with that hashtag & click the "i" for info, then copy the camera type. If it is hyphenated, don't change anything (#SAMSUNG-SM-G870A). If it has spaces, just delete the spaces ("Canon EOS DIGITAL REBEL XT" would be #CanonEOSDIGITALREBELXT).

Misc

ie: "Bill and Bob" Find photos with 2+ named people together

ie: "Dog" Search contents of photo for anything (not just text)

ie: "Bill with dog" Combine searching for named people and things
