

### Getting Started

Tool	Ps	Krita
Fullscreen modes	F	CTRL+S-HIFT+F (fullscreen)
Hand / Pan Tool	Spacebar	Space + click + drag
Hide / Reveal the interface	TAB	TAB (canvas-only)

Krita behaves slightly different and has no default shortcuts for some of these tools. I've chosen their best alternative.

### Color

Tool	Ps	Krita
Matching / Sampling colors	Alt with Brush tool active	Ctrl with any drawing tool active
Color Picker Window	<i>no default</i>	Shift+I (*)
Toggle Foreground and Background	X	X

(\*) In Krita the Color Selector is already visible on the top-right side of the screen.

### Layers

Tool	Ps	Krita
Move tool	V	T
Auto-select Layer on Canvas	Ctrl+Click	???
Name your layer	Double click on layer name	Double click on layer name
Duplicate layer	Alt+Drag with Move tool active	Ctrl+J with layer selected

Not sure yet how to configure Krita to have the Auto-select Layer on Canvas behaviour.

### Blending Paint

#### How do I change the brush flow?

Click on the small down arrow next to the "Opacity" dropdown in the toolbar.

### Brush & Eraser

Tool	Ps	Krita
Brush tool	B	B
Eraser tool	E	E (toggles)
Drawing line segments	Click, Shift+Click	Hold V (*)
Drawing horizontal and vertical lines	Hold Shift while using Brush tool	Hold V+Shift
Brush Diameter Slider	Alt+Right Click	Shift+Click

(\*) Does not apply dynamics
