Bilingual syntax measure

Definition	Why this measure?	Purposes
Instrument we use to collect natural speech	This measure is more stable across dialects than vocabu-lary, pronuncia-tion, or pragmatics.	- To assess the English oral profic-iency of school age children
		- Determine English language dominance in a brief and efficient manner.

Genre

any form or type of commun ication in any mode (written, spoken, digital, artistic, etc.)

Genre

Allomorphs

Definition

Any of two or more actual representations of a morpheme

Longitudinal research

Definition	Advantages	Disadvantages
A type of correlational research in which resear chers observe and collect data on a number of variables without trying to influence those variables	You can better establish the real sequence of events, allowing you insight into cause--and-effect relations-hips.	Time-cons-uming and often more expensive than other types of studies
	Allows repeated observ-ations of the same individual over time.	Attrition, which occurs when partic-ipants drop out of a study, is common in longitudinal studies and may result in invalid conclusions.

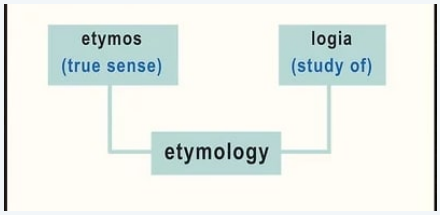
Longitudinal research (cont)

Etymology

Definition

The study of the origin of words and the way in which their meanings have changed throughout history.

Etymology



Allomorphs vs Morphemes

Morpheme is the minimal unit of meaning in a language.	Allomorpheme is a unit of meaning that varies in sound without changing its meaning.
Morphemes can be a word or a part of a word.	Allomorphs are often a part of a word.
Morphemes are concerned with the structure and meaning of words.	Allomorphs are concerned with the sound of words.

Terminology

The body of terms used with a particular technical application in a subject of study, profession, etc.

Schemata

Definition	Types of schema
The formations of ideas based on prior knowledge and known inform ation	**Linguistic schema** includes the decoding features a person needs in order to understand how words are organized and fit together in a sentence (be it spoken or written discourse).
	Content schema refers to knowledge about the subject matter or content of a text.
