

## C Programming Cheat Sheet Cheat Sheet

by NexWebSites.com (NexWebSites) via cheatography.com/57483/cs/15217/

## CODE

Code for execution goes into files with ".c" suffix. Shared declarations (included using #include "mylib.h") in "header" files, end in ".h"

## **COMMENTS**

Characters to the right of // are not interpreted; they're a comment. For multiline comments, place text between /\* and \*/.
