

Jasmine test block

```
describe("A suite", function() {
  describe("Optional
  subsection", function() {
    beforeEach(function() {
      // runs before every
      it(...) in the block
    });
    afterEach(function() {
      // runs after every
      it(...) in the block
    });
    it("contains tests",
    function() {
      // assert using
      matchers
      expect(true).toBe(
      true);
    });
  });
});
```

Focused tests

`ddescribe(block, function() { ... })`

Run only tests in this block

`it(test, function() { ... })`

Run only this test. Takes precedence over `ddescribe (...)`

Skipped tests

`xdescribe(label, function() { ... })`

skip block

`xit(label, function() { ... })`

skip test

Matchers

`expect(1).toBe(1);`

match with `===`

`expect({a:1}).toEqual({a:1});`

match simple literals and variables

`expect("foo bar").toMatch(/bar/)`

match regular expressions

`expect(foo).toBeDefined();`

match against `undefined`

`expect(bar).toBeUndefined();`

identical to `expect(bar).not.toBeDefined();`

`expect(null).toBeNull();`

match against `null`

`expect(1).toBeTruthy();`

`expect(0).toBeFalsy();`

`expect(["foo", "bar"]).toContain("bar");`

match an item in an Array

`expect(1).toBeLessThan(2);`

`expect(2).toBeGreaterThan(1);`

`expect(1).toBeCloseTo(1.5, 1);`

`expect(function).toThrow();`

`expect(function() { throw 'error message'; }).toThrow()`
