Tips & Tricks

Workspace Customization

* Each block can be dragged from its toolbar
* Each block can be resized (bottom-right side sizing handle)

Importing External Files

* URL - `http:/ /fe dit or.t ec h/c ont ent /ur l?Y OUR_URL`
* GIST - `http:/ /fe dit or.t ec h/c ont ent /gi st/ YOU R_G IST_ID`
* To add an external library or framework, add a script element to your HTML and set its source to the file's path. Note that it is possible (and also recommended) to add CDN files (e.g. https://cdnjs.com/)

Editor Shortcuts

More keyboard shortcuts for editor can be found here.
