| Active window (to clipboard) | ⇧ ⌘ 3 [space] [click mouse or trackpad] |
| Active menu (to clipboard) | [open menu]<br>⇧ ^ ⌘ 4 [space] [click mouse or trackpad] |

Change screen shot file location (eg ~/Pictures/Screenshots)

```
mkdir ~/Pictures/Screenshots
defaults write com.apple.screencapture location
~/Pictures/Screenshots
killall SystemUIServer
```

Reset back to default location

```
defaults write com.apple.screencapture location
~/Desktop/
killall SystemUIServer
```
