

271 x12

x12 Mandatory Segments	Envelope Structure
ISA- Interc hange Header - This contains inform ation about the sender and recipient	Interchange Envelope (ISA/IEA) The interchange envelope is the wrapper for all the data to be sent in one transmission. It can contain multiple functional groups. This means that transactions of different types can be included in the interchange envelope, with each type of transaction stored in a separate functional group.
IEA- End of Interc hange - It contains inform ation about the number of functional groups and the interc hange control reference number	^

271 x12 (cont)

ST- Transa ction Set Header - segment of an X12 document	Transaction Set (ST/SE) Each transaction set (also called a transaction) contains three things: A transaction set header A transaction set trailer A single message, enveloped within the header and footer The transaction has a three-digit code, a text title, and a two-letter code; for example, 997, Functional Acknowledgment (FA)
SE- Transa ction Set Trailer - segment of an X12 document. This marks the end of a transa ction set	^

271 x12 (cont)

GS- Functional Group Header - segment of a set of X12 documents of the same document type (trans action set). Here you'll find inform ation about the functional group, e.g. codes for the sender, recipient, and date/time of preparation	Functional Group (GS/GE) A functional group is composed of one or more transaction sets, all of the same type, that can be batched together in one transmission. The functional group is defined by the header and trailer; the Functional Group Header (GS) appears at the beginning, and the Functional Group Trailer (GE) appears at the end. Many transaction sets can be included in the functional group, but all transactions must be of the same type
GE- Functional Group Trailer - segment of a set of X12 documents of the same transaction set. It tells you the number of functional groups and the control group number. It also marks the end of a group of transaction sets	^

Misc

General Responses Include	•eligibility status •Maximum benefits (policy limits) •Exclusions •In-plan/out-of-plan benefits •C.O.B. information •Deductible •Co-pays
Categorical Responses	Procedure coverage dates •Procedure coverage maximum amount(s) allowed •Deductible amount(s) •Remaining deductible amount(s) •Co-insurance amount(s) •Co-pay amount(s) •Coverage limitation percentage •Patient responsibility amount(s) •Non-covered amount(s)
