

Generic: Issues, Merge Requests, Epics

<code>/title <title></code>	Set or update title
<code>/reopen</code>	Reopen
<code>/close</code>	Close
<code>/done</code>	Done
<code>/todo</code>	Add to ToDo list
<code>/award :emoji:</code>	Switch award emoji

Notification: Issues, Merge Requests, Epics

<code>/subscribe</code>	Enable notifications
<code>/unsubscribe</code>	Disable notifications

Comments: Issues, Merge Requests, Epics

<code>/lock</code>	Lock the comment section
<code>/unlock</code>	Unlock the comment section
<code>/shrug <comment></code>	Append the comment with <code>\()Γ.</code>
<code>/tableflip <comment></code>	Append the comment with <code>(J°□°)J</code> ⌚

Issue specific

<code>/move <path/to/-project></code>	Move issue to another project
<code>/clone <path/to/-project></code>	Clones issue in current or given project
<code>/duplicate #issue</code>	Close current issue and mark duplicate to given issue - also marks them related
<code>/relate #issue1 #issue2</code>	Marks given issues as related
<code>/copy_metadata #issue</code>	Copies labels and milestone from the given issue
<code>/iteration *iteration:"iteration name"</code>	Set iteration
<code>/remove_iteration</code>	Removes iteration
<code>/weight n</code>	Sets weight of issue to <i>n</i>
<code>/clear_weight</code>	Clears out weight
<code>/milestone %milestone</code>	Sets given milestone
<code>/remove_milestone</code>	Removes milestone
<code>/due date</code>	Set due date to <i>date</i> : "2020-12-31", "in 2 days", "this Friday" or "December 31st"

Issue specific (cont)

<code>/remove_due_date</code>	Removes due date
<code>/epic epic</code>	Add to <i>epic</i> : &epic, group&epic or URL to an epic
<code>/remove_epic</code>	Remove from epic
<code>/confidential</code>	Make confidential
<code>/promote</code>	Promote to epic
<code>/publish</code>	Publish to associated status page
<code>/zoom zoom_url</code>	Add Zoom meeting to issue
<code>/remove_zoom</code>	Removes Zoom meeting

Labeling: Issues, Merge Requests, Epics

<code>/label label1 label2</code>	Add one or more labels
<code>/relabel label1 label2</code>	Replace current labels with the given ones
<code>/unlabel</code>	Remove all labels
<code>/unlabel label1 label2</code>	remove the given labels

Assignment: Issues, Merge Requests

<code>/assign @user1 @user2</code>	Assign one or more user
<code>/assign me</code>	Self-assign item
<code>/reassign @user1 @user2</code>	Replace assignee(s) with given one(s)
<code>/unassign @user1 @user2</code>	Unassign given user(s)
<code>/unassign</code>	Remove (all) assignee(s)

Time tracking: Issues, Merge Requests

<code>/estimate nw nd nh nm</code>	Set estimated time e.g. <code>/estimate 1w 2d 3h 4m</code>
<code>/remove_estimate</code>	Remove time estimate
<code>/spend time(nh nm) date(YYYY-MM-DD)</code>	Add or subtract spent time, optional specify a date the time was spent on.
<code>/remove_time_spent</code>	Remove time spent

Merge Request specific

<code>/create_merge_request branch_name</code>	Create a new merge request starting from the current issue
<code>/target_branch local_branch_name</code>	Set target branch
<code>/wip or /draft</code>	Toggle draft status
<code>/approve</code>	Approve the merge request
<code>/submit_review</code>	Submit a pending review
<code>/merge</code>	Merge changes. Depending on the project setting, this may be when the pipeline succeeds, adding to a Merge Train, etc.
<code>/copy_metadata !merge_request</code>	Copy labels and milestone from another merge request in the project

Epic specific

<code>/parent_epic epic</code>	Set parent epic to <i>epic</i>
<code>/remove_parent_epic</code>	Remove parent epic
<code>/child_epic epic</code>	Add child epic to <i>epic</i>
<code>/remove_child_epic epic</code>	Remove child epic from <i>epic</i>

An epic value can be provided in form of `&epic`, `group&epic` or URL to an epic
