

Tabs and Windows

Fullscreen	⌘+ Enter
Previous Tab	⌘+ Left Arrow
Next Tab	⌘+ Right Arrow
Go to Tab	⌘ + Number
Go to Window	⌘ + Option + Number
Go to Split Pane by Direction	⌘ + Option + Arrow
Split Window Horizontally	⌘ + D
Split Window Vertically	⌘ + d

Shell Integration

Navigate Between Commands	⌘ + Shift + up/down arrow
Alert on next mark	⌘ + Option + A
Command status	The mark on a command line will turn red if a command fails. You can right click the mark to view its return code.
Download with scp	You can right-click on a filename and download with scp
Upload with scp	Drop a file into iTerm2 while holding the option key

Command History (Shell Integration)

Command history popup	Shift + ⌘ + ;
Autocompl ete	⌘ + ;
Toolbelt	Clicking on Bold Command will scroll to reveal it. Double-clicking enters the command for you. Option-double-clicking will output a "cd" command to go to the directory you were in when it was last run.
