## divorce Cheat Sheet by sams sub via cheatography.com/167999/cs/35785/

in 2022 the law changed so

couples can get married without giving a reason

making it easier to divorce

equalising the ground -

women can also file for

divorce 62% of divorces

making divorce cheaper so

everyone can afford it but it

becoming more common -

around 50% of couples in

more socially acceptable -

people aren't looked down

Western culture have

aotten divorced

were filed by women

still costs to try and

discourage divorce

5 non-theoretical reasons for divorce

changes in

law

decline

stigma and

changing

attitudes

### some interesting facts about divorce

divorce rates have increased over the last 40-50 years

divorces in 2012 were 6 times higher than 1961

42% of marriages end in divorce

serial monogamy is now taking place at a higher rate - divorcing and remarrying different partners

more couples are choosing to cohabit rather than marry

65% of divorce applications comes from women - most common reason is the uncommon behaviour of her husband

couples who are more likely to divorce those who marry young, have a child before marriage, those who cohabit before marriage, when one or both people have been married before

#### key words

divorce - legal ending of a marriage gone through court

### Personal life perspective

Divorce can cause many difficulties such as financial problems (especially for women)

Smart - divorce has become 'normalised'

We now see divorce as being positive 'one transition amongst others in the life source'

## Marxist

Disrupts society and family structure

Has a negative impact on males as being breadwinners

Wouldn't take into account the female perspective

personal life expectancy

#### interactionism

	anxious about getting a divorce
secularis- ation (society turns away from religious values)	religion is losing its power and influence over people as modern society is becoming less religious
rising expectations of marriage	people expectations of marriage being really romantic is the leading cause of divorce

## 5 non-theoretical reasons for divorce (cont)

	social media has set unrealist expectations of a happy perfect marriage making people comare their lives to social media and therefore become unhappy and get a divorce in hope of getting happier			
woman's increased financial indepe- ndence	women working in 1971 - <b>53%</b>			
	women working in 2013 - 67%			
	girls normally do better in school than boys meaning girls leave school with higher grades giving them access to higher paying jobs			
	the idea of men going to work and women being house wives is disappearing as women are able to earn equal to or more than men making them financ- ially stable on their own and not need a man for support			
10500				
1950s marriages				
some people had little choice over who they married				

marriages were often based around econimic factors

romance was a 'bonus' not an exception. it was not something marriages should be based upon
