Retirement / 401K

We put the retirement planning in the hands of the pilot.

Our retirement incentives is two-fold.

Dollar for dollar match of up to 6% an employee's contribution to our Voya managed 401K plan. Pilots may contribute any amount up to the maximum amount allowable by the IRS and the company will match up to 6%.

Also, Flexjet gives directly to the pilots an annual contribution of "deferred compensation" of \$18,000 annually. This contribution matures after 3-years and is available for any investment avenue the employee chooses to utilize to grow their retirement accounts.

If used to maximize the 401K contribution, a pilot may take full advantage of the entire amount with the company covering the federal taxes on this benefits
