

Useful Websites

Tiddlywiki	Main website	http://www.tiddlywiki.com/
Tiddler Toddler	Beginners guide	http://tiddlertoddler.tiddlyspot.com/
TiddlyWiki 5	HTML5 and node.js version	https://github.com/Jermolene/TiddlyWiki

Initial Setup

After creating a new TiddlyWiki edit the following tiddlers:

- DefaultTiddlers** - the tiddlers that should be displayed when opening the TiddlyWiki
- MainMenu** - the items that display on the left side of the TiddlyWiki
- SiteTitle** - the main heading in the page
- SiteSubTitle** - the text following the main heading

Left Menu

To edit the menu:

1. Edit MainMenu tiddler
2. Add menu items in [[]]
3. Add separators using ----- (5 -)

ColorPalette Styles

Background	Background, title and subtitle text
Foreground	Text color
PrimaryPale	Interface options box
PrimaryLight	MainMenu, links, bottom of header gradient
PrimaryMid	MainMenu text, links, tags list, bottom of header
PrimaryDark	Top right menu, tiddler buttons
SecondaryPale	Code snippets background
SecondaryLight	Highlight for buttons and right menu
SecondaryMid	Table titles, save box

ColorPalette Styles (cont)

SecondaryDark	Tiddler titles
TertiaryPale	Right hand menu, tiddler tag button
TertiaryLight	Right hand menu borders
TertiaryMid	Right hand menu unselected tags
TertiaryDark	Tiddler subtitle

Block Elements

Headings	! Heading level 1, !! Heading level 2 etc.
Unordered List	* Level 1, ** Level 2, *** Level 3
Ordered List	# Level 1, ## Level 2, ### Level 3
Definition List	; term, :description
Block Quotes	> Level 1, >> Level 2, >>> Level 3
Preformatted	{{{ quoted text }}} (on separate lines)

Inline Formatting

Bold	'Bold' (pairs of double single quotes)
Italic	//Italics//
Underline	__Underline__
Strikethrough	--Strikethrough

Subscript	~~Subscript~~
Highlighted	@@highlighted@@

Special Formatting

Force a line break	
Create a horizontal line	----
Hide text% text %	% text %
Raw HTML	<html>...</html>
Prevent wiki formatting	""Inside triple double-quotes""

Tables

Columns	Columns delimited by
Headings	Heading text preceded by !
Colspan	>
Rowspan	-
Caption	The Caption c

Adding External Links

Links to external sites can be entered in the following form:

```
[[NY Times|http://www.nytimes.com]]
```

This displays as a link with the title "NY Times"

Tiddler Links

To add a link from tiddler to another, enclose the name of the destination tiddler in [[]] for example, [[Destination Tiddler Name]]. Where names are entered with multiple capital letters (WikiWords), a link is provided automatically.

To prevent WikiWords from being converted to links, use a tilde (~) character at the front of the word.
