2265	"Ward" Disc
2266	"11" Disc

Minecraft server commands

ban	Blacklists the name playernam from the server so that they can no longer connect.
<playernam e>	
ban-ip <ip-address>	Blacklists an IP address so that all subsequent connections from it are rejected.
banlist [ips]	Displays the banlist. To display banned IP addresses, use the command banlist ips
deop <playernam e>	Revokes a player's operator status.
gamemode <playernam e> 0/1	Changes the game mode for playernam to Survival (0) mode, Creative (1) mode. Remember, this will only affect playernam and no one else.
give <playernam e> <data-value> [amount] [damage-value]	Spawns amount (defaults to 1) of the item defined by data-value with the specified damage value (defaults to 0) at playernam 's location.
help	Shows a list of available server commands. Note: banlist, whitelist, toggledownfall, xp, tell, me, and kill commands are not listed.

Minecraft Logic Gates

Minecraft server commands (cont)

kick <player name>	Forcibly disconnects playername from the server.
list	Shows the names of all currently-connected players (the same can be achieved when pressing tab)
op <player name>	Grants playername operator status on the server.
pardon <player name>	Removes playername from the blacklist, allowing them to connect again.
pardon- ip <ip- address >	Removes ip-address from the IP blacklist, allowing players from that IP address to connect to the server.
save-all	Forces the server to write all pending changes to the world to disk.
save- off	Disables the server writing to the world files. All changes will temporarily be queued.
save- on	Enables the server writing to the world files. This is the default behaviour.

Minecraft server commands (cont)

say <mess age>	Broadcasts message to all players on the server (in bright pink letters)
stop	Gracefully shuts down the server.
time <set ad d> <numbe r>	Set or increment (add to) the world time. number is an integer between 0 and 24000, inclusive, where 0 is dawn, 6000 midday, 12000 dusk and 18000 midnight.
toggled wnfall	Toggles rain and snow.
tp <player name> <target layer>	Teleports player playername to targetplayer 's location
whitelist <add re move> <player name>	Adds or removes playername from the whitelist.
whitelist <list>	Displays all players in the whitelist.
whitelist <on off>	Enables/disables the server's use of a whitelist.
whitelist reload	Reloads the list of playernames in white-list.txt from disk.
xp <amoun t> <player name>	Gives the specified user the given number of orbs. Maximum is 5000 per command.
