Not sure where to Start?

Take a look at the possible routes below. Try making your own!

Get a Baseline- Start by taking a practice test before doing any studying to see where you are at. Then, based on the result from your practice exam, start studying foreign concepts.

Hands on Learning - Start by visiting aws workshops and start a lab and learn along the way. take notes and refer back to the exam criteria to make sure you are on track.

Study Buddy - Work with a friend to set up regular sessions to study for the exam and quiz each other on what you learned throughout the week. Compile your notes together for an interactive study experience

Q&A - Browse any of the free resources and start to take written notes. Once you complete your notes, come up with your own exam questions. Come back to them later and see if you know the answer or share with a friend
