ns/project@9ba12248..b19a04f5	commit range comparison
ns/project~"Some label"	issues with given label

Shorthand Cross-Project References

project#123	issue
project!123	merge request
project%123	project milestone
project\$123	snippet
project@9ba12248	specific commit
project@9ba12248...b19a04f5	commit range comparison
project~"Some label"	issues with given label

For projects from the same namespace.

Syntax Highlighting

```
```clojure
(def xf (comp (filter odd?) (map inc)))
`
```

### Inline Diff

```
- {+ additions +}
- [+ additions +]
- {- deletions -}
- [- deletions -]
```

With inline diffs you can display {+ additions +} or [- deletions -].

### Unordered Task Lists

```
- [x] Completed task
- [] Incomplete task
 - [] Sub-task 1
 - [x] Sub-task 2
 - [] Sub-task 3
```

You can add task lists to issues, merge requests and comments.

### Ordered Task Lists

```
1. [x] Completed task
1. [] Incomplete task
 1. [] Sub-task 1
 1. [x] Sub-task 2
```

### Videos

```
! [Sample Video]

```

Image tags with a video extension are automatically converted to a video player.

The valid video extensions are .mp4, .m4v, .mov, .webm, and .ogv.

### Math with KaTeX

```
This math is inline
 $a^2+b^2=c^2$.
This is on a separate line
 $a^2+b^2=c^2$
```

### Diagrams & Flowcharts

```
```mermaid
graph TD;
  A-->B;
  A-->C;
  B-->D;
  C-->D;
`
```

Refer to the Mermaid Cheat Sheet.

Headers

```
# H1
## H2
### H3
#### H4
##### H5
##### H6
Alternatively, for H1 and H2, an underline-ish style:
Alt-H1
=====
Alt-H2
-----
```

Header IDs & Links

All headers automatically get IDs, except in comments.

IDs are generated from header content as follows:

1. All text is converted to lowercase
2. All non-word text is removed
3. All spaces are converted to hyphens
4. Two or more hyphens in a row are converted to one
5. Emojis are removed
6. Duplicate headers have a unique incrementing number appended.

Emphasis

Emphasis, aka italics, with `*asterisks*` or `_underscores_`.

Strong emphasis, aka bold, with `asterisks` or `__underscores__`.

Combined emphasis with `asterisks and _underscores_`.

Strikethrough uses two tildes. `Scratch this.`
