functionalist perspective on crime Cheat Sheet

by t771 via cheatography.com/184771/cs/38584/

background

the functionalist analysis view of crime starts with society. It seeks to explain crime by looking at the nature of society, rather than at individuals.

this is known as a macro-approach. Functionalists take a consensus approach to crime

They believed crime is functional to society. in relation to Durkheim's organic analogy, they believe crime improves social regulation and social cohesion
