### 3. Roll Attributes

Roll 4d6 and drop the lowest, adding the three remaining together. Assign to whatever ability you want, just don't forget your profession's core attribute.

WIL is used to determine how many Willpower points you have, which are used to trigger your special abilities and spells

CON determines your starting Hit Points

Starting Willpower points is equal to your WIL score

Starting HP is equal to your CON score

### 4a. Starting Skill Levels

1-5	3
6-8	4
9-12	5
13-15	6
16-18	7

On your skills list, you will see the linked Attribute next to it, for example Acrobatics (AGL) means your based Acrobatics skill level is = to the Starting Skill Level for AGL.

Ex. You have an Agility of 15. Meaning any skill linked to AGL (agility) starts at a 6 (see table above).

Go ahead and fill out all the skills on the sheet, using this method.

### 5. Roll for Memento

Roll on Page 27 of the rulebook, or come up with an idea. Remember, they are very small items that take up negligible room, are non-magical, and are not valuable.

### 5. Roll for Memento (cont)

Optional: Weaknesses - you may give yourself a minor weakness, such as Gullible, Gluttonous, Kleptomaniac, reckless, fearful, etc. If you role play this weakness you gain an Advancement Mark at the end of the session

Mementos are small items that bring you comfort or let you recovery your focus. They are never magical, nor valuable (to anyone but you).

Once per game session, during a STRETCH rest (15 minutes) you can focus on your Memento to remove one condition

### 3a. Damage Bonuses and Movement Adjustments

STR/AGL	Bonus
<= 12	No bonus
13-16	+1d4
17-18	+1d6

Your STR is used to determine your MELEE bonus, while AGL is for your RANGED bonus.

Your Movement is modified by your Agility.  
 AGL 1-6 = -4 movement penalty  
 AGL 7-9 = -2 penalty  
 AGL 10-12 = No change  
 AGL 13- 15 = +2 Move bonus  
 AGL 16-18 = +4 bonus

### 4. Roll Age

Roll	Age	Skill options	Adjustments
1-3	Young	6 profession + 2 of any choice	AGL and CON +1
4-5	Adult	6 profession + 4 of any choice	None
6	Old	6 prof. and 6 of any choice	STR, AGL, CON all at -2, INT and WIL get +1

### 4b.. Assign professional skills

**Profession Skills** Each profession has a collection of skills you can choose to make "trained" skills. Typically, it's 6. Go through and upgrade six profession skills so that they are double their base skill rating.

**Free choice skills** Your age determines how many "free" skills you get that are not linked to your profession. For example, a Young PC will get 2 bonus skills, while an old adventurer gets 6. You can choose any skills, professional or not, but NOT skills you already trained. These additional skills get their base skill rating doubled
