Ishan Upadhyay

Summary

Ishan Upadhyay (cont)

Ishan Upadhyay is applying for the position of Institute Web and Coding Club Manager. His vision is to **enhance the coding culture** within the institute by *organizing regular hackathons*, *hands-on sessions*, *talks*, and *bootcamps*. He proposes several initiatives, such as *a year-long AI/ML bootcamp, the establishment of an AI/ML community, a weekly DSA test, a Linux hands-on session, and a game development hackathon*. Additionally, he suggests follow-up activities like *early software-prep sessions, a* **Winter Season of Code***, a coding competition, and the revamping of Hello FOSS.* Ishan plans to

Shivesh Gupta is applying for the Institute Web and Coding Manager position. His vision is to cultivate a robust community of coders and programmers, encouraging collective growth and learning within WnCC (Web and Coding Club). He suggests initiatives such as organizing hackathons, hosting competitive programming sessions, encouraging open-source contributions, improving the Summer of Code (SOC) program, endorsing Linux culture, sharing insights from Inter-IIT teams and Hackathon participants, **maintaining and updating club resources**, and presenting various technical topics. Additionally, he aims to revitalize WnCC (WnCC
