### Ignore

```

/ jshint ignore:start /
/ jshint ignore:end /

```

### Ignore

```

/ jshint ignore:start /
/ jshint ignore:end /

```

### Enforcing

```

/ jshint curly: true /
while (day) // err: use { }'s
    shuffle();
/ jshint eqeqeq: true /
if (a == null) // err: use ===
/ jshint es3: true // ...for legacy IE compatibility
a.default = function() { ... }; // err: reserved word
array = [ 1, 2, 3, ]; // err: extra comma
/ jshint forin: true /
for (key in obj) { ... } // err: check obj.hasOwnProperty(key)
/ jshint freeze: true /
Array.prototype.count = ...; // err: don't modify native prototypes
/ jshint indent: 4 /
if (x) { // err: expected indent of 4, found 2
    ...;
}
/ jshint quotmark: single /
/ jshint quotmark: double /
alert("hi"); // err: only single allowed
/ jshint strict: true /
function() { ... } // err: need "use strict"
/ jshint white: true, indent: 4 /
/ jshint maxdepth: 2 /
/ jshint maxparams: 3 /
/ jshint maxstatements: 4 /
/ jshint maxcomplexity: 5 /
/ jshint maxlen: 80 /

```

Enable these options to catch more errors.
