React Compiler - memo

useMemo	auto
useCallback	auto
memo	auto

You no longer need to do these manually

React Compiler - lazy

React.lazy	Suspense
useMemo	Suspense
useCallback	Suspense
useContext	Suspense

by React Suspense Compiler (RSC)

use()

use(context)	instead of useContext()

use()

use(context)	instead of useContext() -- useContext must be called at the to
use(promise)	`'use client'; import { use } from 'react'; }</ p>; }`

return value of the context
