React Compiler - memo	
useMemo	auto
useCallback	auto
memo	auto
You no longer need to do these manually	

React Compiler - lazy	
React.lazy	Suspense
useMemo	Suspense
useCallback	Suspense
useContext	Suspense
by React Suspense Compiler (RSC)	

use()	
use(context)	instead of useContext()

use()	
use(context)	instead of useContext() -- useContext must be called at the to...
use(promise)	'use client'; import { use } from 'react'; ... }</ p>; }
return value of the context
