12: Fire Safety Cheat Sheet

by twjh via cheatography.com/121486/cs/22305/

Gas Safety

Butane	Highly flammable
Gas leaks	Ventilate and don't use matches or use electrical switches
Removing gas	Manual bilge pump (but not always effective)
Where to keep gas bottle	In a locker that drains externally

Fire prevention

Ensure any lagging around pipes, engine compartments is secure and fireproof.
Provide extinguisher holes into engine and generator compartments.
Install fire flaps over air intakes.
Good gas procedures.
Ensure fabrics are fire retardant.
No smoking below decks.

Fire fighting equipment

Galley fire blanket	Used for covering up fires
Water fire extinguisher	Combustible materials
Foam fire extinguisher	Combustible materials and flammable liquids
Dry powder fire exting-uisher	Everything but deep fat fryers
Carbon Dioxide fire exting-uisher	Flamable liquids and electrical equipment
