

Getting Started

Intro to topic, no matter how much money

trying out the notes section

Water First!

Adults can live for months without food, but we can only live about 3 days without water or other liquids. Children, the elderly, the very active, and people living in hot climates may need water more quickly.

How Much Water Do You Need?

The minimum amounts recommended by the U.S. government FEMA are zzz per person per day. That allows for drinking, cooking zzz

WATER: What to Do

Estimate how much water you have in your home: hot water heater, bottles or jugs of water, hot tub, etc.
